### Local Produce

Locally produced free-range eggs are available for sale at Sine Cera for \$5 / doz. They will be located in the cool room in the kitchen with an honesty box for payment. If you would like a large number, please pre-order by texting Natasha on 0456 709 715 two weeks prior to your retreat.

### Environmental Management

**Waste Treatment:** Due to the pristine environment in which we are located, Sine Cera operates an Enviroflow system of waste treatment. It is a very expensive system based on maintaining bacterial systems that breakdown waste. It is therefore important that only environmentally-friendly cleaning products be used.

**Rubbish Management:** Food and other compostable materials must be placed in the bins provided. **Please ensure compostable food waste is placed in the bin provided and kept separate from other waste. Non-compostable waste must be placed in the plastic bags provided and removed from site on departure.**

### Staff Assistance

The on-site Manager, Tim, will brief caterers on equipment and kitchen hygiene rules. Tim is available to assist with any equipment issues.

### Final Clean-up Requirements

**Please leave the kitchen as you found it.** Failure to do so will result in a \$300 cleaning fee.

Notify staff of any breakages or damaged or faulty equipment.
